WILD IS THE WIND

This swirly hat can be made fitted or beret style, slouchy or not, custom sized to your head, with buttons or without, with a pointed tip or not; with all these options, you can make it over and over, differently each time. It's constructed from the top down, twisted stitches swirling outwards with yarn over increases, until the body is the right width and height for a custom fit - the gauge is measured directly on the hat, and then measurements are calculated to find your custom numbers. Lastly, the brim is knit on sideways, decreases attaching it to the body.
